

# Evergreen College

Evergreen College is a private career college specialising in diploma and certification programs with co-op/ field placements that are designed to fill real needs in today's job market.

The college is accredited by the MTCU, the National Association of Career Colleges and the Ontario Association of Career Colleges. All the campuses are conveniently located in Downtown Toronto, and in other locations in the Greater Toronto Area - namely Scarborough, Mississauga, Markham, Brampton, and Calgary, Alberta.

Students will be eligible for an internationally recognized diploma program and field placements at Evergreen after they have reached an appropriate level of English proficiency with EC. Once students complete their diploma programs and field placements, they may be able to stay in Canada with a work visa for 2 years, earning valuable work experience, gaining business contacts in their fields as well as earning points towards Canadian citizenship.

## LOCATION INFO

Canada is known as a safe and peaceful country to live in. For the last couple years, a United Nations annual survey evaluating quality of life has found Canada to be the best place in the world to live. With more than 65 per cent of Canadians owning their own homes, Canadians enjoy a standard of living among the highest in the world.

Apart from being among the top three countries in the Organization for Economic Cooperation and Development (O.E.C.D.), the Canadian government spends more money on its education system than any other country in the G7.

Degrees from Canadian colleges are recognized worldwide, and international students who graduate from Canadian colleges enjoy successful and prosperous careers.

The country is an international leader in computer and information technologies, with a reputation for excellence in such sectors as telecommunications, transportation and engineering; and specifically, aerospace, urban transport, microelectronics, medical devices, advanced software, hydroelectric and nuclear power, lasers and optic - electronics, biotechnology, food and beverage processing, geomantic; and ocean and environmental industries.
